

MANITOU™

ULTRALITE

Now you can have the fun of a day touring kayak combined with the performance and weight of a high end composite kayak. Introducing the new Manitou 13 and the Manitou 14 in a light weight fiberglass lay up. These boats are among the lightest kayaks in the industry. The Manitous are the perfect combination of a recreational kayak combined with the feel and glide of a performance touring kayak. They feature a cored construction throughout for a lighter and stiffer product versus most composite kayaks. If you're looking for a lightweight recreational touring kayak, check out the Manitou UltraLites – you won't be disappointed.

FEATURES

- Extremely light weight – easy to handle on and off the water
- Cored construction throughout allows for a stiffer and lighter kayak hull which translates to a boat that is more efficient, more responsive and incredibly tough.
- Composite seat with back band provides comfort without adding a lot of weight
- Adjustable foot pedals
- Composite thigh braces
- Reflective deck rigging
- The Manitou 13 features a stern hatch with bulkheads
- The Manitou 14 features bow and stern hatches with bulkheads
- The Manitou 14 features a retractable skeg with Necky Kayak's own "kink free" Necky Wire™.
