

# MANITOU™ RECYCLED

Made with 100% post industrial plastic our new recycled Manitous not only perform well on the water, they are environmentally friendly. Necky Kayaks uses our own cut outs and plastic waste to produce these unique kayaks. But don't let the word 'waste' fool you. Our 100% recycled material actually contains stronger property materials than our standard Manitou line. Outfitted with Comfort Fit™ thigh braces and reflective deck rigging, our recycled Manitous help pave the way toward a better environment tomorrow and cleaner waterways today.
